

# AGRISEL AGRIFAC PRO

100% Active Liquid Super  
Surfactant and Spreader Sticker

**AGRIFAC PRO** is an exciting new generation blend of new SUPER SURFACTANTS based on **Organo-Modified Siloxane Technology**. This new technological advance allows this product to perform far beyond the capabilities of conventional surfactants and spreader stickers - in fact with as much as 25 times the efficacy. This new chemistry is so effective in wetting out hydrophobic surfaces that the resultant effect can only be likened to **Molecular un-Zipping** with the zipper being pulled open in the presence of AGRIFAC PRO SUPER SURFACTANT. This molecular un-zipping effect ultimately shows itself by it's enhanced ability to lower surface tension and contact angles of spray droplets.

## POWER PACK HERBICIDES

Plant stomata are the microscopic pores in the leaf surface through which water, oxygen and CO<sub>2</sub> gain entry. With the addition of AGRIFAC PRO, droplet size becomes ideal for rapid absorption by the plant stomata, and droplets are

## PRINCIPAL FUNCTIONING AGENTS

100% Active Proprietary Blend of Nonylphenol Oxyethylene and Siloxane (Silicone-Polyether Copolymer)

quickly translocated through the plant for more effective weed control.

## SUPER CHARGED WETTING AGENT

AGRIFAC PRO's efficacy in herbicide enhancement can be utilized in non-chemical application wetting. Stomatal wetting ensures more even and effective wetting out of dry spots, allows for faster and deeper penetration into soil structure, and promotes larger, deeper and healthier root systems.

## CAUTION

**KEEP OUT OF REACH OF CHILDREN**

# AGRISEL AGRIFAC PRO

100% Active Liquid Super  
Surfactant and Spreader Sticker

## COMPATIBILITY

AGRIFAC PRO may be used with most wettable powders, emulsifiable concentrates, or soluble formulations of most herbicides or pesticides currently on the market.

## APPLICATION

### FOR USE WITH HERBICIDES, FUNGICIDES AND INSECTICIDES

Add AGRIFAC PRO to the spray tank at the rate of 4 to 6 ounces per 100 gallons of spray solution.

### FOR USE AS A SOIL AND TURF WETTER

**Greens and Tees:** Apply early in the season to improve water penetration, absorption and retention at the rate of 8 to 12 ounces of AGRIFAC PRO per acre. Apply in minimum of 50 gallons of water per acre. May reapply at 2 week intervals during the warm weather months.

**Fairway and Athletic Fields:** Apply at the rate of 16 to 24 ounces per acre in a minimum of 50 gallons of water per acre.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes and clothing. Keep from open flame or sparks. Do not get in eyes. In case of ingestion or eye contact, flush with plenty of water and get medical attention. May be harmful if swallowed.

### CONTAINER DISPOSAL

Triple rinse, then offer for reconditioning.

**NOTICE:** Seller's guaranty shall be limited to the terms of the label and subject thereto. The buyer assumes any risk to persons or property arising out of the use or handling and accepts the product on these conditions.
